Frame moved to approve the consent agenda. Second by Ames. Brief discussion among the council members. Motion carried by unanimous voice vote.

Items removed from the Consent Agenda.

None.

Discussion/Action regarding the Pre-Annexation and Development Agreement filed by Bloomfield Holdings, LLC, for the property located at 875 Townline Road, Tax Key No. No. MB 500003
Motion by Hoiland to approve to the pre-annexation agreement and development agreements, second by Frame. Brief discussion among the Council members.

At 7:04 p.m. Hoiland moved to waive the rules to allow Symphony Bay 8 developer Brian Pollard to address the Council. Second by frame. Motion carried by unanimous voice vote.

Question from the Council concerning the annexation agreement and the development agreement. Attorney Draper stated that the agreements cannot be separated and must be addressed at the same time.

Alder Fesenmaier expressed concern about adding model homes to phase eight of the project as well as how long before the Home Owner Association is turned over to the residents of Symphony Bay. Pollard indicated his willingness to eliminate the model homes in phase one and to reduce the number of model homes in phases one through eight to two (2) total. Pollard expressed concern turning over the HOA too early.

Fesenmaier moved to limit the number of model homes at Symphony Bay to two (2) total. Second by Frame. General discussion including Hoiland stating that the motion was unnecessary for various reasons. Attorney Draper read Section 8.3 to the Council regarding this specific topic. Pollard stated he was fine with the amendment. Motion carried by a 6-1 voice vote with Hoiland voting no.

Fesenmaier then addressed Section 12.2 and the meaning of the wording. Attorney stated this was to avoid issues if the City were to adopt new codes / ordinances which conflict with the approved General Development Plan and Precise Implement Plan for the Symphony Bay development.

Fesenmaier then addressed the topic of denying occupancy of a home without the driveway being installed. Pollard responded that he builds homes year-round and cannot pour driveways during winter weather conditions, especially during the months of January through April. This proposal would result in no homes being built for six months out of the year.

Fesenmaier then addressed Section 11.2 regarding a one-year structural warranty. Pollard stated there is already a one-year warrant in place.

General discussion was held between the council members and the developer. Some expressed concern about additional information they would like to have, including the affordability of the homes, impact on the local schools, impact on the City services, the lack of communication from Bloomfield and other topics. Pollard reminded the Council that the original proposal was submitted in the Fall of 2023 and that this proposal is consistent with the City of Lake Geneva's Comprehensive Plan.

Fesenmaier asked about item six in the developer's agreement regarding traffic signals. Pollard responded that the agreement is addressing phase eight and the fact that a traffic signal will not be required. Pollard stated he has agreed to a payment of one thousand dollars (\$1,000) per unit in phase eight to go towards the cost of a traffic signal at the Townline and Edwards intersection.

Frame stated her support of the annexation agreement and warned of the consequences of allowing this parcel to be developed in Bloomfield.

Fesenmaier inquired about the impact of construction traffic on adjoining roads. Mayor Krause stated that the north side of Bloomfield Road belongs to the City of Lake Geneva with the south side of the road is under Bloomfield's jurisdiction.

Yager expressed concerns about this development and how much growth the City is able to accommodate. Pollard stated that Lake Geneva's future growth is limited; particularly with Bloomfield moving north towards Lake Geneva.

Ames stated her concerns with Symphony Bay, but supports this development being under the jurisdiction of Lake Geneva instead of Bloomfield. Hoiland stated this is a watershed moment and believes the residents of Lake Geneva want this parcel brought into the City limits. He further stated his objection to Town of Bloomfield islands within the City limits of Lake Geneva. He also reminded the Council that the topic at hand, at this moment, is the annexation of the property. Frame stated her support of annexation.

Fesenmaier again stated her belief that the City should be compensated for the wear caused by construction traffic on City roads. Fesenmaier moved to amendment Section five of the agreement to read “no improvements to east Townline Road or North Road will be required unless those roads are used by construction traffic. Improvements to the north half of north Bloomfield Road shall be required of the developer” Second by Yager. General discussion concerning the motion among the council members and the developer and a representative of Kapur Engineering.

At 7:45pm Howell called the question on the amendment. Howell moved to close debate. Second by Frame. Motion carried by majority voice vote.

Nord read back the amendment. Mayor Krause called for a roll call vote. Motion failed on a 3-4 roll call vote with Esposito, Yager and Fesenmaier voting yes.

Howell called the question Second by Frame. Motion carried by majority voice vote.

Nord restated the original motion and the one amendment regarding the maximum of two (2) model homes within phase 1 through 8 of Symphony Bay. Motion carried by 7-0 unanimous roll call vote.

Executive Summary:

System is Teams / Zoom Presentation Meeting Room. System Control will be via a 10" Touch Panel at the Diaz. Client Diaz PC will be connected to cables that support Hdmi and 3.0 Usb for a Teams / Zoom Meeting. A PTZ camera will be mounted on the Rear wall near the Flat panel Display. This will be the camera pointed at the front Diaz. Speech audio will be via the Diaz table mics. This audio will be present in the room and sent to both the far side Teams/Zoom participants and to the You Tube streamer. The system will use a Voice Lift style of audio reinforcement to provide the needed Audio Echo Cancelation and a smooth experience for the participants. This audio will also be recorded on a Digital recorder so that it can be stored and posted. The Diaz PC will be the control Codec for both video and audio which will process these streams over a 3.0 Usb pathway. Ceiling speakers will provide the Program audio, Far Side audio and the Diaz microphone reinforcement. The room will also have wireless presentation capabilities. 2 laptops can be connected at the same time but only one laptop, can be displayed at a time. The Touch Panel will select this option and a pushbutton on a dongle connected to the laptop will select which laptop will be presented on the display system. The AV equipment will be located in the rear closet which will have a new AV rack. The Team/Zoom image will be displayed on the existing projectors and on a new 50" Rear Flat Panel Display. A PTZ camera will be mounted on the Front wall behind the Diaz. This camera will provide the Audience camera image. Control for both cameras will be from the 10" Touch panel at the Diaz. System will utilize the (2) two existing projectors at the front of the room.

Revision: 1

Location Summary

Court Room

\$26,438.73

The existing speakers will be reused. The existing stick on microphones will be removed and replaced with desktop microphones to the existing ones. 5 existing microphones will be reused. The existing cameras will be replaced with 3 new cameras. The two rear camera locations will be kept and the two existing front cameras will be replaced with a single camera. These cameras will be programmed to automatically switch and zoom based on the active speaker. The existing video system will remain in-place and will not be added to the control system. That said, a splitter will be added to the output of the evidence PC allowing it to feed into the existing VGA adapted distribution system. An HDMI extender will allow for the other PC output to be run back to the rack closet for content into the streaming device. Please note, if there is not a conduit pathway back or extra existing wiring, Smart Spaces will need to surface run the wire and cover it with rubber floor track so that it can be fished up the wall and over the ceiling to the equipment room. A touchpanel is included for system control which will be set on the main center bench. This could be installed in the equipment room or in a different location with wiring access.

Equipment Closet

\$22,087.60

Smart Spaces will remove all of the existing audio equipment from the racks in the equipment closet unless any devices are tied into the video system that is staying in place. The existing monitor in the rear of the room will no longer work and will be abandoned. Smart Spaces will install a new surge protector, DSP processor, network switch, and amplifier in the existing racks. Smart Spaces will also install a new video streaming and recording device in the racks. This device will take video input from the camera and audio system (via USB) and from the evidence PC via HDMI. The client will be responsible for configuring and managing layouts on this device. Remote management of the audio and camera system is included in this proposal for 1 year. This feature must be continually renewed to maintain access. The current price is \$14 per month for the designed system.

Grand Total:

\$48,526.33

Court Room

The existing speakers will be reused. The existing stick on microphones will be removed and replaced with desktop microphones to the existing ones. 5 existing microphones will be reused. The existing cameras will be replaced with 3 new cameras. The two rear camera locations will be kept and the two existing front cameras will be replaced with a single camera. These cameras will be programmed to automatically switch and zoom based on the active speaker. The existing video system will remain in-place and will not be added to the control system. That said, a splitter will be added to the output of the evidence PC allowing it to feed into the existing VGA adapted distribution system. An HDMI extender will allow for the other PC output to be run back to the rack closet for content into the streaming device. Please note, if there is not a conduit pathway back or extra existing wiring, Smart Spaces will need to surface run the wire and cover it with rubber floor track so that it can be fished up the wall and over the ceiling to the equipment room. A touchpanel is included for system control which will be set on the main center bench. This could be installed in the equipment room or in a different location with wiring access.

Terms and Conditions

Signature of proposal or receipt of customer purchase order binds client to the following terms and conditions.

Peace of Mind SMART SPACES AV Warranty

- All work is warranted by SMART SPACES to be free from defects in materials or workmanship for a period of twelve (12) months from date of delivery /or substantial completion, or for the length of manufacturers stated warranty (whichever is longest, for parts only, labor is for 12 months only). No agent or representative of SMART SPACES is authorized to make any additional representations or warranties unless in writing and made part of these terms and conditions of sale.

System Design Goals

There are two primary principles which determine the content of your system.

- First, we create a system design that precisely matches your individual needs and wants for video, sound and styling.
- Second, we make every attempt to insure that the system is as easy to operate as possible so it will be used and enjoyed more often than a system that is complicated and difficult to use.
- With this in mind, we have recommended a combination of components that will provide the highest level of performance with a minimum amount of user operation. You are assured of receiving the maximum value for your investment.

Optimum Performance and Seamless Integration

- Your system has been carefully engineered to blend with the architecture and interior decor of your home or office, while providing the best possible performance. Our system designer will work with yours or BSI's architect (if part of contract scope), interior decorator, builder or cabinetmaker to assure that the system installation meets their and your aesthetic requirements.

Installation, Services and Responsibilities

- Supervise all phases of the installation
- Review blueprints of equipment cabinetry, for proper dimensions, ventilation and wire management.
- Coordinate work performed by other trades, such as electrical service requirements, carpentry. etc.
- Exclusions: Not included in the scope of work unless called for in Attachment 1, or included in a separate SMART SPACES construction/electrical contract:
 - All conduits, high voltage, wiring panels, breakers, relays, boxes, receptacles, etc.
 - Concrete saw cutting and/or core drilling
 - Fire wall, ceiling, roof and floor penetration
 - Necessary gypsum board replacement and/or repair
 - Necessary ceiling tile or T-bar modifications, replacements and/or repair
 - Structural support of equipment *SMART SPACES is not responsible for building related vibrations
 - All millwork (moldings, trim, cut outs, etc.)
 - Patching and Painting
 - Permits (unless specifically provided for and identified within the contract)
 - Unless otherwise stated the pricing in this agreement does not include prevailing wage or union labor
 - Unless specifically noted lifts and scaffolding are not included.

End User Training Included

- Equipment and system overview
- Equipment operation and function
- Equipment start up, stop, and shut down
- Equipment automatic and manual operation
- Discussion and documentation relating to control system operation
- Discussion and documentation relating to system processor and its control applications
- Powering up, powering down AV system via control system
- Manual operation of display systems, audio system and all other related components

Assumptions

- The room(s) match(es) the drawings provided
- Site preparation by the Customer and their contractors includes electrical and data placement per SMART SPACES specification, if

Contract

SMART SPACES is not providing electrical and data placements.

- Customer communication of readiness will be considered accurate and executable by SMART SPACES project manager.
- If Customer furnished equipment and existing cabling is to be used, SMART SPACES assumes that these items are in good working condition at this time and will integrate into the designed solution. Any repair, replacement and/or configuration of these items that may be necessary will be made at an additional cost.
- All Network configurations including IP addresses are to be provided, operational and functional before SMART SPACES integration begins. SMART SPACES will not be responsible for testing the LAN connections.
- Cable or Satellite drops must be in place with converter boxes operational before the completion of integration. Any delay resulting in extra work caused by late arrival of these items will result in a change order for time and materials.
- A documented Change Control process will be used when possible - the Customer will have an assigned person with the authority to communicate/approve project Field Directed Change Orders and Contract Change Orders.

Delays

- If delivery cannot be made as scheduled (due to non-SMART SPACES related conditions) buyer will pay any applicable warehousing and redelivery charges. The product will be made available for inspection at the designated storage facility and will be invoiced according to original schedule and payment terms.
- Rescheduling and redeployment of BSI technicians due to unacceptable site preparation may cause scheduling delays and Customer will be charged a re-mobilization fee to offset the lost time due to the lack of readiness.

Safety & Storage

- Purchaser agrees to furnish a safe place for storage of BSI supplies and equipment as well as all furnishings and materials, described herein. In addition, supply without cost; necessary light, heat, power, elevator service and a safe environment for SMART SPACES and its associates. SMART SPACES associates shall be informed by the owner of all hazardous substances which they may come in contact with at the site.
- The site shall be clean, clear and free of debris prior to commencement of work. Adequate facilities for off-loading, staging, moving and handling shall be provided.
- After arrival at site, any loss or damages by weather, fire or other elements, other trades, or buyers' personnel, shall be the responsibility of the buyer. On drop shipments not installed by SMART SPACES, client is responsible to receive, unload, inspect, deliver and install the product. Client must notify SMART SPACES, in writing, of any claim for damages to goods within 2 days of drop ship delivery, to be eligible for filing a freight claim. In the event of damages SMART SPACES reserves the right to repair damaged product or replace the item as deemed appropriate by SMART SPACES.

Asbestos/Mold

- In the event it shall be determined or found during the course of SMART SPACES performance of this contract that there is asbestos or mold in the area of the work being so performed, it is understood and agreed that SMART SPACES shall discontinue its work until such time as the asbestos or mold is removed by owner and/or general contractor with whom this contract is being made. In the event the asbestos or mold is not so removed or other suitable arrangements are not made, this contract shall then terminate and SMART SPACES shall then be paid for the work performed by it up to the time of the termination of its performance. SMART SPACES shall not be responsible for the removal, cost of removal or the cost of any construction delays which shall be caused, incurred and/or sustained by reason of the presence of asbestos or mold on the subject premises.
- After asbestos containing materials or mold has been removed by a qualified abatement contractor, the owner shall provide SMART SPACES with a written air clearance sample results (as determined by laboratory analysis) that are no greater than 0.01 fibers per cubic centimeter as analyzed by phase contrast microscopy or as accepted by EPA transmission electron microscopy clearance standard.

Changes

- All change orders or proposals for additional work must be signed before work will commence. No credit allowance shall be made for alterations, unless such credit or allowance has been agreed to by SMART SPACES in writing.
- All additions, amendments, or changes of any manner whatsoever, subsequent to this contract, shall be now and at all times subject to the provisions, restrictions, limitations, conditions and remedies provided for in this contract, whether or not such orders, additions, amendments or changes be evidenced by further writings.
- In the event a cancellation must be made after this proposal is approved and submitted by the purchaser to SMART SPACES, it is understood and agreed that SMART SPACES will be paid for materials ordered, all stock inventory and all work already accomplished on the project to date of cancellation, as well as all manufacturer cancellation/change penalties.

Terms of Payment

- 50% due at time of order for projects under \$250,000. For projects over \$250,000, 1/3 due at order, 1/3 due at receiving of product, and the final 1/3 due at project completion.
- All invoices due within 30 days of receipt. 2.5% interest will be charged on all delinquent payments.
